

health hazards for photographers pdf

Photographers are exposed to chemical, physical, and psychological hazards during the course of their work. Photojournalists are at physical risk from motor vehicle crashes and work in war zones.

Health Hazards for the Artist - Cleveland Institute of Art

Don't forget long-term health hazards. Identify groups of people. Remember: n some workers have particular needs; n people who may not be in the workplace all the time; members of the public; n if you share your workplace think about how your work affects others present. Say how the hazard could cause harm. List what is already in place to reduce the likelihood of harm or make any harm less ...

9.0 Studio Health & Safety Assessment Tripping: - Camera Stand, Props, Tri -pods . Ensure the lights/fittings are secure on the stands and that there is sufficient space for everyone to move around without a tripping/collision hazard.

City & Guilds Photography: 9.0 Studio Health & Safety

Photographers have to be aware of the environmental and health issues in Photography. Not so much now but many of the chemicals that are/were used in Photography can be and are damaging to your health. Chemicals have to be respected and the appropriate safety items or clothing etc should be worn when using these items

Health and Safety Considerations - Blogger

Unit 23: Photographic Media - Health & Safety In all work places health & safety is an important aspect and needs to be addressed just as much when working in the creative industry. Assessing risks when working as a photographer, whether on location or in the studio is vital to safe working conditions.
