

high resolution site surveys pdf

Even the highest resolution SAR images are rather coarse when considering the small features of power line components. Moreover, as SAR is a side-looking ranging imaging system, there are geometrical deformations and multi-path scattering, which make the analysis of SAR images very challenging in the case of complex targets such as power line ...

Remote sensing methods for power line corridor surveys

The page you are trying to access has moved. The Connecticut State Department of Education has a new website. If you have existing bookmarks you will need to navigate to them and re-bookmark those pages.
